

CALPACK PALLET RAISER

EASY AND EASY TO SET UP

Good shrink-wrapping starts with the correct placement of the shrink-wrap.

The accessory, Calpack, helps you by creating a space under the pallet in order to slide under the excess shrink-wrap. When shrinking, the film passes under the pallet.

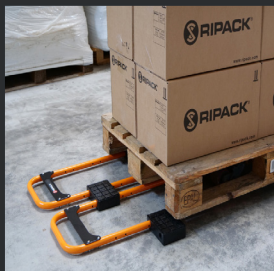

This method makes it possible to seat the load on the pallet and to ensure its stability during long journeys or with considerable handling.

The quality and optimal results obtained with shrink-wrapping your pallets also depends on the Ripack accessories you use.

The Calpack is lightweight and foldable. It's easy to move around and takes up no space in the warehouse. It's the ideal ally for good shrinkage.

TECHNICAL SPECIFICATIONS

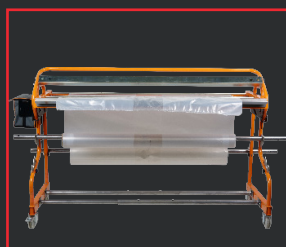

Item code	N°331314
Coating	epoxy paint
Length/Width/Height	1060 x 910 x 40 mm 41,7 x 35,8 x 1,6 inches
Weight	7,30 Kg - 16,1 lb
Package dimensions	1080 x 370 x 120 mm 42,5 x 14,6 x 4,7 inches
Package weight	9 Kg - 19,8 lb
Pallet compatibility	80x120 cm - 100x120 cm - 40"x40" - 40"x48"
Maximum weight	1200 kg - 2646 lb
