

GAS HOSE REEL
FOR A PACKAGING STATION ALWAYS TIDY

The Ripack swivel gas hose reel ensures a longer product life for your equipment. A quality job also depends on the Ripack accessories you use.

Like any workstation, a Ripack shrink-wrap station functions best when equipment can be properly stored. With its automatic hose retraction system, you no longer have to drag your Ripack shrink gun around.

A ratchet locks your hose at the required length to make it easier to shrink-wrap your pallets. Simply pulling on the hose triggers the retraction mechanism.

The reel with a 15m hose is an alternative to the Ripack gas bottle trolley and also makes it easier to move around goods that need shrink-wrapping.
