

TRANSPORT HOLDER FOR EXTENSIONS

SAFE TRANSPORT

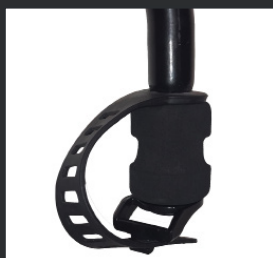

With the transport bracket for extensions, you can protect your Ripack equipment in your car when travelling to construction sites. In this way, your equipment is well secured and guaranteed to last longer.

This holder is suitable for the complete range of extensions and, thanks to an hook, it can also hold the gas hose.

Practical and ergonomic, it can store 2 extensions safely thanks to its rubber straps that can be closed quickly and the foam padding protects the extensions.

As it is attached to the wall of your van, it takes up no space and your extensions can't slide back and be damaged.
