

EASYKNIFE SAFETY CUTTER

A PRECISE CUT FOR YOUR PACKAGING MATERIAL UNDER FULL SAFETY

With Ripacks' range of safety cutters, you can rest assured that you are working in complete safety, whatever you are cutting. With its automatically retractable blade, the Easyknife cutter should be used for your cardboard boxes.

Perfect for cutting any material; cardboard, film, plastic, paper, textiles, etc. of up to 10 mm thick.

EasyKnife can be held risk-free in both the hand and the pocket and will not cause any injury, thanks to its automatically retractable blade. You'll get no more cuts due to accidents or clumsiness.

Access to the blade is lockable for complete safety.

EasyKnife is particularly popular for cutting cardboard and stiff materials, which can pinch and hold the blade out during the cutting process. The blade will then automatically retract into the handle. Its ergonomic design facilitates grip.
