

SAFEKNIFE SAFETY CUTTER

A PRECISE CUT FOR YOUR PACKAGING MATERIAL UNDER FULL SAFETY

With Ripacks' range of safety cutters, you can rest assured that you are working in complete safety, whatever you are cutting. The Safeknife, with its safety lip, should be used for cutting packaging film.

For any application when time-saving and safety for both user and goods are paramount; cuts plastic, paper, film, cardboard or textiles up to 2 mm thick.

Industry, boating, building, etc. and any activity using, in particular, shrink or stretch film, cardboard packaging, textile or synthetic webbing.

SafeKnife slips safely into your pocket. You'll get no more cuts due to accidents or clumsiness. Access to the blade is lockable for complete safety.

SafeKnife only cuts packaging material, neither cutting nor scratching the product underneath, such as merchandise packaged under shrink film or stretch film.

Its ergonomic design facilitates working in any position.
